Services

Managing our customer's soft furnishing kanban, through removal, dry cleaning, continued air worthiness certification & replacement are key-components of the Airbase UK offering. We complement this with 21J management, design services & project management for cabin interiors design & refurbishment.

- EASA & UK CAA Part 145 approvals
- Dry-cleaning
- Stock management
- On-wing Cabin Appearance Team (replace & remove)
- UKAS accredited in-house burns certification
- Design engineering
- 21J solutions for UK/ EPA

Manufacturing

The manufacture of soft furnishings is one of the Airbase Interiors core offerings. We have a wide variety of process offerings from our site at Gatwick, all with the possibility of 21G Form 1 release under our UK CAA certification. We have IP protected Life Vest Pouch offerings incorporating our patented designs and technologies.

- UK CAA 21G approval
- Cut, sew, laminate, emboss, embroider, overlock, design
- Multi-layer or single layer CNC cutting
- Seat covers, bases & headrests
- Curtains
- Carpets
- Life Vest Pouches
- Galley Filters

MRO

Maintenance, repair & overhaul offerings overlap with our Service & Manufacturing solutions, enabling a turn-key offering for the cabin. We have a team of highly experienced seat engineers & repair machinists that ensure the continued air worthiness of clients' assets, whether this be the seat structure or the soft furnishings.

- UK & EASA 145 approval
- UK based seat engineers – ideal for UK based OEM warranty work
- Soft furnishing repairs – extending the shelf life of product at a fraction of the cost of new purchase
- End of lease support for returning Aircraft to lessor in agreed condition

Airbase Technology

In addition to Airbase UK's traditional in-cabin offerings we are proud to present Airbase Technology. We can provide paperless solutions to enable on-wing maintenance, certification processes, stock handling & management, KPI development, web app deployment & bespoke application implementation.

- ATLAS On-Wing
- RFID product marking, stock & cabin management
- Microsoft BI & Power-apps
- Create a paperless regulatory blockchain with Form 1 release, approval and storage
- UKAS approved burn certification release software
